Judge Enrabce Befording Slavery and Declaring for Boughts.

The Conservator of the 30th ult., gives a sketch of Judge Labraurz's speech at Monasha, from which we take the following extract, and commend is to the attention of our readers:

commend it to the attention of our readera:

It was useless to agitate the quostion of Slavery—it was not only settled by law, and by the decisions of the highest tilounal of the land; but it was settled by Jehoveh himself. Slavery or servitude was the normal or natural condition of the African. The "affectionate principle" of the African was a remarkable feature of his nature. He loved to be led. He wanted a master and if the present form of slavery was abolished, it would only assume another and as master and if the present form of slavery was abolished, it would only assume another and as bad a form. Agitation of the llavery question, or the success of the Republican party would onchanger the stability of the Union, and he would rather see every State in the Union as slave State than to see such a calanity befall our Nation. DOUGLAS was his ido. DOUGLAS was a partied and a hero and he prayed to God that he might be successful in his present stroggle.

It is quite clear that, with such views of SLAVERY, Judge LARRABUE, if elected to Congress, would vote for any measure that the South should demand, for the encouragement and protection of their "peculiar institution."

NEBRASKA-REPUBLICAN.-The Territorial Legislature of Nebraska met on the 21st of September, and received Governor Richardson's Message. The Administration party nominated FIRMING for Speaker, and the Republicans BEK-METT. It was moved to question the candidates, when France was obliged to acknowledge the he sustained the Leccupton policy, and the Dred Scott decision-declaring that Slavery exists in the Territories, and the Territorial Legis lature has no power over it. His Republican opponent was then elected by 17 to 12. We like the honest asknowledgement of the principles of the Administration, but they will receive no other reward than the honors of martyrdom. We are glad to hait Mebraska as the sister of Kansas, twin stars in the Republican galaxy.

REPUBLICAN NOMINATIONS FOR JEFFERSON County.-O. F. Waxe, of the town of Palmyre, Sheriff ; T. R. MOTT, of Watertown, Clerk of the Court ; F. G. L. STRUVE, of Farmington, Register of Deeds; J. F. OSTRANDER, of Aztalan, Treasurer; MARK CURYIS, of Jefferson, Clerk of the Board ; H. Prass, of Waterloo, District Attorney; A. Walde, of Sullivan, Surveyor; and J. D. WATERBURY, of Aztalan, Coroner.

This is in every respect, so far as it regards the location, capability, and popularity of the several candidates, an excellent ticket, and it will undoubtedly be successful.

There has also been heavy cutting and embankments in several other places along the line. This is unperalleled in the history of Railroad construction, in the best of times. Verily Selah is King of Railroad Contractors.—Sparta Heraid, 30th ult.

NATIONAL BANKRUPTCY,—The government ex-penditures are at the rate of \$2,000,000 per week, while the receipts do not exceed \$700,000, another loan of \$20,000,000 is already talked of as soon as Congress assembles in December,— The indications are that Mr. Buchanan will go out of office leaving behind him a debt of at least a hundred millions of dollars.

*The Detroit boys were unfortunate. They had just began to "put in" emart, when the axie of their machine broke. They had the sympathy of every one, and, as far an at hey had gone, it looked as they were to take the prize.

† The Utica machine was throwing beautifully—crawling up the pole as if they meant to reach to top—when her hose burst.

† There are variations in regard to these figures, of from two to five feet. The weight of evidence seems to be in favor of the figures we have given for the two machines; but our own figures give the Stamford machine two feat more than we have placed in the table.

§ There were high hopes of the Lansinburg machine; but her hose burst while in full play.

¶ The Water Witch burst her hose the first time trying, and was in time for a second trial, but did exactly as in first trial.

§ No. 3, oBrooklyn, did, we think, better than the figures given—at least four feet; but the weight of testimony is in favor of 155 feet. engraved in the fleest style of Wood Engraving, by

WHISKEY -- 20a2le, according to quantity. We dod a strange fact in existence in New York Country bank notes are actually worth more than specie and such notes are hoarded up while sliver is paid ou The following from the U. S. Economist will show th operation of this anomaly in New York city:

operation of this anomaly in New York city:

A person has \$1,000 wages to pay on fisturday, instead
of paying in country bank notes buys \$1,000 in allyor for
\$995 bank money, and saves \$6, at the same time paying
specie to his man. Fuch a state of the money marked
haver occurred before. It is obvious that a continuous
of such a state of things would drive the country bank
notes out of circulation and fill all the channels with all
toreage as fast as the demands of returning notivity in
trade.

GENTLEWENT-Accept my thanks for a copy of "The Exiles of Florida." I have read the book with great interest and much finitrostion. It seems a striking light an imperiant portion of our history, and olearly reveals the secret springs by which successive administrations were moved in affairs of great moved and positional consequence. The distinguished author has especially entitled himself in the himself of every of freedom, junice and homorable administration, by fracing and exhibiting the evil it discussed sinvery in the transactions which he mayrates. No one, it seems to not, can arise from priming this work, without despended convictions of the w.ong of polywholding, and of the necessity of carnets and persistent for its risk deliverance of our Mational Government from the control of the slave poor.
